Hunting Rules For Approaching Hunt Listed By Officials

Hunters Are Warned To Be Careful With Fire During Hunt

With the full blast of the Sierra deer hunting season scheduled to be unleased Saturday, foresters and fire protection agencies unite in an appeal to all deer hunters to "be careful with fire in the fields and forests."

Donald Knowlton, Nevada County ranger, California Division of Forestry, and Lloyd A. Rickel, forest supervisor, Tahoe National Forest, making plans to meet the impact of thousands of deer hunters, issued this joint statement:

"Deer hunters, in the majority, are good woodsmen. A good woodsman is law-abiding and is always careful with fire. A small majority of deer hunters—the ratio might be one in a hundred—do not have "religion." Through indifference or ignorance of the hazards of fire, they are annually responsible for a number of woods fires.

"It is easy to prevent fires. The few simple precautions to be taken should inconvenience no one. The important rules are:

(1) Secure a campfire permit before leaving for the woods to camp. Permits can be obtained free at ranger stations, at most sporting goods stores, and many public offices such as city halls and fire departments in the mountain towns.

(2) Build campfires only in a safe place with a clearing of all inflammable material for a distance of five feet around.

(3) A burning campfire may not be left unattended at any time.

(4) Extinguish campfire completely with water before abandoning it.

(5) Smoking is permitted in vehicles on roads, in campgrounds, and while stopped in an area cleared to mineral soil three feet in diameter. All burning material to be completely extinguished before discarding. Smoking is prohibited while traveling on foot or domestic animal through forest or brush covered areas or along roads or trails that are posted against smoking.

(6) Do not throw any burning or glowing substance from a vehicle.

(7) It is unlawful to possess or fire tracer or incendiary bullets on or across forest covered land.

"If every hunter will just do right by the above rules, chances of forest fires and damage to natural resources will be greatly minimized."

LT. GOV. POWERS ADDRESSES ROTARY

Lieut-Gov. Harold Powers gave an enlightening talk on highways, recreation and water conservation at a meeting of the Truckee Rotary Club at Donner Lake Lodge Monday night. He also discussed the decentralized government and the growth of the state.

He compared the 1926 state budget of $65,000,000 to the 1954 budget of $1,400,000,000 as an example of the state's development. He said there are 155,330 more children in school this year than last, using this as an example of the rapid growth of California.

Also on the program was State Senator Harold Johnson who gave a brief talk on the district's fish and game program.

Johnny Ciardella and William Curran were program chairmen and Alvah Hooper presided. There were a number of visiting Rotarians, Lions, 20-30 Club members and guests.

Awards Will Be Made At Cub Scout Meeting

Cubmaster Glenn Lee will conduct a Cub Scout pack meeting in the Truckee Elementary School on Tuesday evening, September 28 at 7:30.

Parents are requested to attend with the members who will receive earned awards at this time. It is particularly essential that boys of eight years who wish to join the organization to have their parents accompany them.

LIONS INSPECT BOX COMPANY MILL HERE

The Stockton Box Company were hosts to the Truckee Lions Club Wednesday afternoon for a tour of the sawmill operation. At the regular meeting which followed the tour, Lew Baysinger, manager of the company's plant here, presented a short and interesting talk on lumber manfacturing and cited the facts and figures on the Truckee plant.

Lion District Governor Rodney L. Pearce of Yuba City made his official visit and report to the club.

Guests were Ralph Greenwell of Grass Valley and O. J. Larrivee, a new Truckee resident and employe of Bank of America from San Leandro.

Dual Control Car For Local School To Teach Drivers

On-the-road training in safe and sane automobile operation is being offered for the first time to students of Tahoe Truckee High School this year.

School Superintendent Everett V. O'Rourke revealed today that the school has purchased a Chevrolet station wagon in order to provide actual behind-the-wheel training to Tahoe-Truckee High School students.

The school has been offering classroom instruction in the principle of highway safety, as required in all high schools under state law, but was unable to obtain an automobile for use in actual driver training prior to purchase of the car this year. By including on-the-road training, Tahoe Truckee High School joins scores of California high schools which are now offering both phases of driver education and training.

The car is equipped with dual clutch and brake controls designed by the American Automobile Association. With these controls, the instructor is able to retain full command of the car while a student driver is at the wheel.

Hugh J. Smith, Jr., is instructor for the course.

The school purchased the dual controls at cost from the California State Automobile Association. The CSAA also assists in the classroom phase of driver education at Tahoe Truckee High School by making available the AAA textbook, "Sportsmanlike Driving," at cost and by supplying other instruction aids at no expense to the school.

Daylight Saving Time Will End Here Sunday

As the summer nears an end, once more the time changes and Sunday at midnight clocks will be set back one hour as daylight saving time is brought to a close until next summer.

The change means only that it will permit another hour in bed in the mornings. By the time everyone gets pretty well used to the change over, it will be time again to set the clocks ahead.

JOERGER WARNS OF CLOSED LANDS

Deer hunters are being warned by J. E. Joerger that the 10,000 acres which he controls just south and east of Truckee is being posted until the final three days of the approaching season.

Unless the posting is observed by hunters, Joerger declared, he will reluctantly ask that the area be declared a refuge and no hunting will be permitted at any time for at least two years.

At the same time the local cattleman said he is requesting jeep drivers to refrain from using his lands as the vehicles are cutting his pastures into shreds and destroying range food which this year is very scarce. Jeeps may use the established roadways but many drivers cut across fields and pastures without regard to damage caused, Joerger declared.

"We do not want to appear tough or take an attitude of selfishness," Joerger declared, "but we must protect our stock and ranges. All we ask is the cooperation of the hunters and they will find us more than willing to go half way."

PANKOKE WILL BE RADIO REPAIRMAN

Robert Pankoke, who with his wife recently purchased the Donner Lake Coffee Shop from G. E. Lewis, this week began work as a radio rpairman at Loynd's. Pankoke is an experienced radio technician and will do work at the well-equipped shop or in the home.

In the meantime Mrs. Pankoke is in charge of the coffee shop.

CLUB TO MEET

The Wyethia Club will hold a meeting in the club's building on Friday, October 1, the program to be announced later by Mrs. Fred Pedley, president.

Goode Guest—

Mrs. Elden Tonini returned from a visit withh Mr. and Mrs. Clair Goode at Woodland.

Wolverines Win Opening Football Game At Home

Tahoe Truckee Gives Fine Display Of Strength Against Douglas

The Tahoe Truckee Wolverines opened their 1954 football season last Saturday with a resounding 18 to 2 defeat of the visiting Douglas High School from Gardnerville.

It was a fine dedication of the Wolverines' new football field, and was witnessed by a large group of local fans.

The game was scoreless at the end of the first quarter, but with the locals hardpressed and handicapped by penalties and a fumble. Right Halfback Mickey Williams slipped off right tackle for a 25-yard gallop as one of the first period highlights.

In the second quarter Bob Sanford, left halfback, took a pitchout from Pat Griffith, quarterback, and pitched a perfect strike to End Lewis Fellows on the goal line for the first score and at the half, the Wolverines led 6 to 0.

"The play of the game" came in the third period when Mike Vieu, playing his first game for the local team intercepted a pass and ran 68 yards for the second touchdown. Tom Dolley and Lewis Fellows did a fine blocking job for the runner.

In the fourth period the Wolverines once again went on the march. Williams and Dick Mandeville carried the ball for good gains with the drive stalled on the Tiger 25-yard line when the locals kicked into the end zone for an automatic touchback.

The final score came following a pass interference ruled against the Tigers which gave the Wolverines a first in goal on the three-yard line. Jay Stuart called on Fullback Dick Mandeville to carry the ball and he blasted his way into the end zone.

Outstanding play was performed by all the team, but particular mention should be made of Tackle Bill McLain, Fullback Mandeville, Ends Fellows and Thomas and Guard Tom Dolley for their defensive play. On the offense Bob Stanford and Mickey Thomas ran well with fine blocking from Frank Giovannoni, Jim Bowden and Bob Trask.

On October 2, the locals go to Manogue at Reno for a 2 p. m. game and will play here with the Yerington team in a homecoming contest October 9 at 2:30 p. m.

Douglas Elf Celebrates On Birthday At Party

Douglas, son of Mr. and Mrs. Roy Elf was the incentive for a birthday party on September 21, given by Mr. and Mrs. Martin Sturcke.

The little boy received gifts and refreshments were served. Beside the immediate families and friends, Mr. and Mrs. C. Robinson of Hawthorne, Nevada, and Les Deckwa of Sacramento were among those present.

STREET WORK HERE COMPLETED FAST

Business in Truckee was at a virtual standstill all day Monday and Tuesday morning as the Clements Construction Company crews completed the work of placing a new surface over the street, a part of the project which extends from Donner Lake gate to the Riverside Hotel.

The heavy equipment made fast work of the job and while traffic was delayed only briefly, no parking was permitted on the north side of the thoroughfare during the operations.

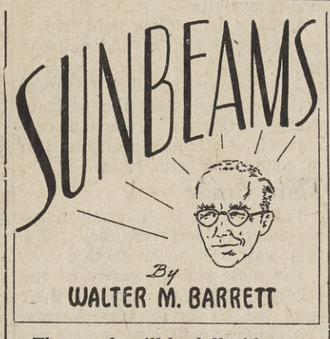
STORE HOURS

Dave Rose of Rose Market at Gateway this week announced that effective Sunday, September 26, the store hours will be from 9 a.m. until 7 p.m. instead of the summer schedule 7 a.m. to 9 p.m.

Officials Here—

Calvin W. Kramer, secretary-treasurer and division grievance chairman for the Brotherhood of Maintenance of Way Employes, accompanied by Arnold Kreuger, both of Sacramento were official visitors here this week.

SUNBEAMS



By WALTER M. BARRETT

The woods will be full of hunters starting Saturday as the deer hunting season opens in this district. Many will be using every precaution to avoid an accident but a few will throw caution to the wind and shoot at every moving object. Strict rules and laws have been designed to protect the hunter, but these laws mean nothing to a few, so our advice, for what it is worth, is to watch your step, wear red hats and shirts, and don't expose yourself to those careless few. And a last word on fires. The forests are extremely dry and winds may be high. A spark could easily ignite the entire forest; so beware, keep an eye on the less cautious and immediately report any violation noted. A handful of wardens and forest service men can't be everywhere so it's up to the individual to protect his forest and fields.

Pet Parade Will Be Feature Of Wyethia Country Fair Program

Children will parade their pets which will receive awards under various classifications as an afternoon feature of the Wyethia Club country fair which will take place on October 2 in the local high school.

The fair will open at 11 a.m. with a program planned into the evening, including a fashion show preceded by dinner to be served at 6:30.

Booths will feature home cooked delicacies, needlework, white elephants, art and safety exhibits.

Mrs. Fred Pedley, president of the club, said that the fair will be a benefit to buy extra testing equipment for the driver education program being conducted at the Tahoe Truckee High School.

Tickets are available for the affair by contacting officers of the women's organization.

Deductions May Be Taken On Donations To Local Hospital

Contributors to the Tahoe Forest Hospital may deduct the sum donated from their federal income tax, according to information received by Administrator John J. McGlade.

A recent inquire by the hospital brought the following reply, in part:

Contributions made to you are deductible by the donors in computing their taxable net income in the manner and to the extent provided by section 23 (o) and (q) of the Internal Revenue Code.

While the hospital is partly self-supporting and receives the balance of required revenue from taxes, there is a definite need for contributions to assist in providing more than necessary facilities for patients, McGlade pointed out. He emphasized the desire to have the recreational porch room completed for ambulatory patients and staff members. Considerable progress has been made there but there is still much to do, McGlade said.

Many generous donations have been acknowledged during the short time the hospital has been functioning and still others have been promised, McGlade declared.

W.S.C.S. MEETING DATES CHANGED

Mrs. Eugene Risden announced that the meeting dates of the W.S.C.S. have been changed to the second Thursday afternoon at 1:30 p.m. and on the fourth Tuesday evening at 7:30 p.m., during the month.

On September 28, the evening meeting will be devoted to Bible study in the Methodist Church parsonage.

Mrs. Risden said that cards will be sent to members of the current meeting place in various homes before the appointed time.

Rates Announced For Water Under New Donner Plan

Certificate Issued To Give Donner Firm Right To Sell Water

Conditions under which the Donner Lake Water Company, a corporation, may serve domestic water to an area at the northeast end of Donner Lake were set forth in the certificate issued by the Public Utilities Commission of the State of California last week.

The certificate was granted almost immediately after the Truckee Public Utility District withdrew its objection to the issuance. The utility district embraces the area to be served but currently its water lines are a mile or so away from the region to be served.

During the public hearing held last month, a representative of the Donner Lake Development Company testified that the company will make available to the water company the necessary funds and will underwrite the applicant's expenses if a certificate was granted.

The area to be served comprises some 500 lots. The source of water supply is a 115-foot well equipped with a deep-well turbine pump capable to delivering 200 gallons of water per minute into the distribution system and into a 25,000 gallon redwood tank located 250 feet above Highway 40.

There are also several springs producing a total of 50 gallons per minute and water from these springs is delivered into two 1500-gallon steel tanks.

The distribution system consists of approximately 8000 feet of 6-inch, 4-inch and 2-inch steel pipes and when completed there will be approximately 13,800 feet in the system. It is also proposed to install a 10,000-gallon tank and booster pump with a capacity of 80 galolns per minute. Cost of the entire project when completed will approximate $115,000.

Rates applicable under the certificate follows:

Summer season: For eight-month period, April 1 to November 30, $24 for single family premises; hotels, apartments and motels: first room or unit, $24, each additional room or unit, $12.

Winter rates: December 1 to March 31, each single family residence, $3; hotels, apartments and motels, first room or unit, $3, each additional room or unit, $1.50.

Meters may be installed at the option or utility or consumer for above classificaiton, in which event service thereafter will be rendered on a separate basis.

Children Blamd For Two Local Grass Fires

Two brush and grass fires in the edge of the timber just north of Truckee Sunday morning at 11:30 o'clock brought the Truckee Volunteer Fire Department and the U. S. Forest Service to the scene and the incipient blazes were quickly extinguished.

Fire Chief N. F. Dolley said that both fires, within 60 feet of one another, had undoubtedly been started, probably by children playing with matches.

Had there been a wind, the fires could have caused considerable damage and it was only through the efforts of the fighters that a disastrous conflagration was averted.

Wyethia, Rotary Will Hold Joint Meeting

The local Rotary Club and the Wyethia Club will hold a joint dinner meeting Monday, September 27 at Donner Lake Lodge.

Featured on the musical program will be Jerry Quam, Carol Ann Quilici, Janet Allen, Karen Smart.

MOTORS STOLEN

AUBURN — Deputy Constable Richard Lavery of Kings Beach, informed the sheriff's office five outboard motors were stolen at various points on Lake Tahoe during the past weekend. The motors were valued at $400 each, he said.

Mrs. Charles White is the guest of Mrs. W. F. Wilkie in San Francisco where they are attending the opera.

Local Logger Is Killed In Accident Near Reno Plant

Ted Everett Mobley, 46, who has been hauling logs from this area for the past several months, was crushed to death Monday afternoon while unloading logs at the Western Lumber Company yards on Sutro street in Reno.

The accident occurred at 3:45 p.m. Witnesses said Mobley, known among his friends here as "Fatso," had just driven into the yard with a load of logs and was releasing the chain binding the timber when the load toppled. Two logs about two and a half feet in diameter rolled onto the victim's chest, pinning him to the ground and partly under the truck.

Death was believed instantaneous. The Reno ambulance and police were called to the rescue and had to summon a hoist to release the trapped man. A resuscitator was applied for more than an hour without results.

Mobley, a native of Vancouver, Wash., and had resided in Reno for the past four months. He is survived by two daughters who live in California.

Funeral services will be held in Reno.

TAHOE CHAMBER TO SELECT OFFICERS AT MEET TUESDAY

Officers for the coming year will be elected at an important membership meeting of the Lake Tahoe Sierra Chamber of Commerce to be held on Tuesday, September 28 in Cal Vada Lodge. It will be a 1 p.m. luncheon meeting at which Fred Main will preside.

Reservations may be made by telephoning or contacting Mrs. Imon Mitchell at the chamber of commerce office at Tahoe City before September 26.

Several well known public officials from Nevada and California are expected to attend, including Senator Ken T. Johnson of Carson City, Nev., to represent the brotherhood of the neighboring states, Senator Harold Johnson of Roseville, representatives from the California Chamber of Commerce from Sacramento, George T. McCoy, state engineer from San Francisco, Supervisors Andy Anderson, Frank Paoli, Senator Swift Berry of Placerville and others interested in the area.

DISTRICT PRESIDENT OF PTA TO VISIT

Mrs. W. J. Hallem, third district president of the Parents and Teachers Association and Mrs. Charles Best, high school service chairman, both of Sacramento will attend the third district area conference to be held in the Truckee Elementary School building on Thursday at 8 p.m. on September 30.

All members of the elementary and high school Parents and Teachers Association in this district are invited to attend.

Refreshments will be served by a committee with Mrs. Chester Marquis as hospitality chairman.

Temperature Drops To Below Freezing Mark

TAHOE CITY—Temperatures at Tahoe City have dropped below the freezing mark during the past week with a cool 29 recorded last Friday. Days, however, remain warm, with the high being 71 on Sunday.

Ten gates are open into the Truckee river and the lake level stood at 6227 feet on Monday, Art Frodenberg, cooperative observer reported.

Population Swelled As Two Born At Hospital

The local population was swelled by two boys born in Tahoe Forest Hospital during the past week when Mr. and Mrs. Victor McLane welcomed their fourth child on September 18. He weighed in at 7 pounds and 11 ounces and has the given names of Michael Victor.

Mr. and Mrs. Fallio Moreno also became the parents of a son on September 20 who weighed 7 pounds and 7 ounces. He has been named Aurliano Julio.

Mattos, McIver, Smart Winners In Local Election

163 Voters Set Record For District Balloting In Local Contest

In one of the most spirited district elections ever held in Truckee, two incumbent members and one write-in were elected to the governing board of the Truckee Sanitary District Monday afternoon. A total of 163 voters took part in the balloting.

Heading the list with a total of 96 votes was incumbent Joe Mattos, a veteran member of the board, followed by James McIver, the second incumbent, with 90 votes.

Among the three write-in candidates, Reg Smart received 77 votes to be elected to the board. Smart was just three votes ahead of Jack Neugebauer who polled 74. H. L. Owens, the third write-in candidate, received 60 votes while a last minute write-in, Charles Osburn, received 48 votes.

There were a few scattered ballots, including eight for Clarence Osburn, two for William Curran, who with Robert Siebold is a hold-over member of the board, and one each for John Street, Andrea Armati and Mickey McKay.

Smart, Owens and Neugebauer had entered the race two weeks ago on a campaign pledge to return their salaries, if all were elected, to be used for street and alley cleaning. Only the names of Mattos and McIver were on the ballots.

Couillard Honored By Weather Bureau For Outstanding Service

Arthur Couillard, postmaster and cooperative weather observer at Soda Springs, has been signally honored by the U. S. Weather er Bureau and the State Climatologist's office for California for his activities during the past ten years.

A letter from E. L. Felton, metrologist in charge of the San Francisco office of the U. S. Weather Bureau reads in part:

"We are very proud to present you this bronze (lapel button) 10-year length of service award as a tribute to the outstanding service you have given to the weather bureau since your appointment as cooperative observer March 29, 1943.

"Your many years of voluntary service and unselfish devotion to the work of the weather bureau are not only commendable, but furnish an inspiring example to public service.

"The many observations you have recorded have added to the storehouse of climatic information needed to answer many vitally important questions."

WIDE SCREEN WILL IMPROVE THEATER

Jack Neugebauer this week announced that he has started installation of a wide screen and CinemaScope equipment at his Donner Theater in Truckee. It will take approximately 30 days to complete the installation, Neugebauer said, after which he will be equipped to show all type of pictures on the local screen.

The new equipment will comprise a 24-foot Walker seamless screen which will be fitted on a frame now being constructed by Carl Painter, local builder.

New lenses will be placed in the projectors to provide for the CinemaScope pictures.

The new equipment is being installed to provide local theatergoers with the best the industry has to offer, Neugebauer said.

Truckee Graduates Are Attending San Jose State

Misses Jinx Rood and Marcia Dudley, graduates of the Tahoe Truckee High School with the 1954 class sharing an apartment at San Jose while attending San Jose State College. Miss Rood is majoring in education and Miss Dudley in journalism. Both were student leaders in the local school and are looking forward to a successful year.

Mill Workers Will Hunt On Season's Opening

There'll be no work at the Stockton Box Company mill Saturday.

Most of the crew wanted to go hunting the first day of the deer season and so have been putting in 10-hour days this week in order to have the vacation Saturday.

Since the mill reopened August 20, two million board feet have been shipped from the local mill at the rate of three to four cars and four to five truckloads a day, Lew Baysinger, superintendent reports.

Plans are to keep the mill operating as far into the winter as possible and efforts are being made to build up a stock pile of logs before bad weather starts.

Tahoe-Truckee School District News

Kindergarten

The kindergarten children have been learning to work and play together. They are learning to share with each other. Each day we are adding one new activity to our "work-time." Activities at present are coloring, block play, books, and wet-chalk drawing.

Next week we plan to learn about families and pets.

First Grade

The first grade unit for this quarter is the "Home and Family." We have been reading stories about families and drawing pictures of our own family group. We have been writing some stories about some of the pictures we have been discussing and these stories are being read in reading period.

Second Grade

"Trains" is our Social Studies unit. It will help us to understand our community, by learning how important things are transported and distributed. It helps us to appreciate the work of others and our dependence upon them.

Danny Garcia, Salvador Cobera, Gregory York, Eddie King, Gordon Pemberton told about relatives who take care of trains, tend switches, and keep tracks repaired so that trains may run.

We are planning a field trip to our railroad station and railroad yard.

Later we will make a model train. We shall play the parts of engineer, fireman, brakeman, conductor and others working on and in connection with trains.

Third Grade

The third grade will study transportation in social studies. The first unit will be on trucks.

The aims and objectives of the different kinds of trucks, their uses, and the service they provide. The children will also see the relationship of the industry in our community to other parts of the country.

In this study, social skills, academic skills and proper attitudes will be developed.

The possible sequence to be followed are: the lumber trucks, oil trucks, freighters, truck that bring our foods, and the school bus.

Reading, writing, spelling arithmetic, oral and written language, music, art, and construction activities wil be correlated. This will provide a meaningful, interesting and constructive learning situation.

Fourth Grade

California, the Golden State, is the general subject to be studied by the fourth grade this year. This past week has been spent getting acquainted with maps so that we may be able to recognize California and the United States whenever we see them. The children colored maps showing where they and their parents had been born in relation to where they now live. A highlight of the week was singing "Happy Birthday" to California on its one hundred fourth birthday.

In the next four weeks we shall be learning about the people who came to California from Mexico and the kind of life they lived. Pictures and maps, both individual and group, will be used to show the information gained.

A comparison of these early times with the present in the area first settled by the Mexicans will follow. A group of activities to be chosen by the children will help to clarify the situation.

Fifth Grade

Our class is beginning a study of the colonists and colonial life.

We have been reading a story about some children who lived during colonial times. We have learned that children in those days had to work much harder than children do now. Also, we discovered that they went to "dame schools" or "reading schools"; and they had to sit on wooden benches without daring to whisper, or else the schoolmaster would switch them with a birch rod or put a dunce cap on their heads. We had fun playing the part of colonial school children and acting as if we were really in one of the schools during those times.

We have also been reading many books in our class library about the colonists. We have found out some very interesting things about them, and we have been making reports to the rest of the class about the things that each of us has learned.

Sixth Grade

Our class spent some time the first day relating information we knew about Canada. This was followed by listing some of the items we wished to know about Canada and its people so that we might better know and understand them. From these many questions three broad topics emerged for which committees were formed for research.

The boys and girls felt they would begin their committee work with an investigation of British Columbia, since it is the province closest to us.

After the individual committees sat down and discussed their problems and ways of attacking it and reporting their findings, varied and interesting projects came forth.

Together with the fifth grade and sixth grade organized the traffic patrol and its method of operation this year. They will maintain the crossings on Highwav 40 at the Bank of America and Todd's Bargain Spot. The patrol is seeking the cooperation of the California Highwav Patrol, motorists, local residents and schoolmates.

Douglas Single was appointed to the responsible task of coordinating the activities of the patrolmen. Those assisting him as lieutenants are: Judy Giovannoni, Quinton Kay, Gerry Pitts, Timmy Risden, and Nicky Stone. The other members of the traffic patrol are: Jim Murray, Carol Johnson, Nancy May, Phillip Harris, and Elethia Marquis of the sixth grade and Mike Robichaud, Terry Walker, Donald Breakfield, Jimmy Osburn, Stephanie Cozzi, Dorette Rose, Karen Pitts, Patty Finnegan, Rickie Rockholm and Gene Miller of the fifth grade.

Television Will Aid In Handling Trains In Yards Of Railroad

Use of industrial television as "extra eyes" to aid railroad yard officers in watching freight car movements and general switching operations over a large area is the aim of TV tests now being conducted by the Southern Pacific in one of its yards at Los Angeles.

In making the announcement today, D. J. Russell, president of the company, said the RCA technicians who supervised installation of the equipment believe it to be the first for viewing an entire railroad yard.

The experimental TV setup includes two cameras—one wide lens and one telescopic lens mounted on a special structure atop the general yardmaster's large-windowed tower, 60 feet above track level—also one TV viewer installed at the desk of the terminal superintendent, Russell explained.

Over the TV viewer the terminal superintendent or general yardmaster gets a wide picture of yard activities in a 40-track area where freight trains are made up. Pressing a button brings in a picture from the telescopic lens, giving him a closeup of yard operations 2000 feet away. He can see obstructions, or defects on cars, and spot safety violations or vandalism.

Five or six cameras in a permanent installation would cover a two-mile-long railroad yard from every angle, the rail president said. Cameras housed in all-weather boxes fitted with automatic temperature controls and windshield wipers would be remotely controlled, from a panel beside the 10-inch viewer, to swing from side to side or focus on chosen areas, it was explained.

California led the nation in 1953 in the number of cattle, calves and sheep slaughtered.

British Columbia produces 53 per cent of Canada's sawn lumber on about one-eighth of that nation's forest land.

From where I sit ... by Joe Marsh

Slugger Wins the "Home" Game

Slugger White, the home town's star hitter, dropped by the other day to talk baseball, and to "tell one" on himself.

Seems Slugger had been baby-sitting. "I was doing just fine," he said, "until it was time for a 'change.' I called Mom for advice. Still didn't get it right. Then Dad set me straight."

"'Place the diaper like a baseball diamond with you at bat,' he said. 'Fold second base over home plate, and pin first and third base on home plate.' That did it—with no errors!"

From where I sit, Slugger's Dad had the idea. Often, like his Mom, a lot of us tend to give advice in our terms without considering the other fellow's way of doing things. Even in choosing your favorite beverage, it's best to think of your neighbor. If you like tea, and I prefer a temperate glass of beer, we should both "*play the game*" and try to understand each other's point of view.

Joe Marsh

SWANEE'S Lake Tahoe Letter

Tahoe City, Sept. 19

Dear Tahoeites:

Mrs. Jeannette Mitchell, secretary of the Lake Tahoe-Sierra Chamber of Commerce this week wishes me to remind chamber members to be sure and reserve Tuesday, September 28, for the big annual membership luncheon, and meeting, to be held at Cal-Vada Lodge starting at 1 p.m. The general public is welcome to attend, but must make reservations before September 26 if possible. She also reminds members that only those in good standing are eligible to vote, but those who have not yet paid their dues may do so at the meeting before the voting begins.

President Fred Main will be on hand to preside and several noted guests expected include Senator Ken Johnson of Carson City and Senator Harold Johnson of Roseville.

Most important business on the agenda is the election of new officers for the coming year. Among top nominees are Norman Celio of South Tahoe, now vice president, a candidate for president to succeed Fred Main who for the past two years has done a magnificent job, and Judge Harry Charrison of Kings Beach and Al Young of Bijou, two nominees for the vice presidency. Lake Forest's Bob Snyder will retain the treasurer's post, since no nominee could be found willing to accept it. From a list of 30 names 15 new directors will be voted in. Mrs. Mitchell and Mrs. Clara Sanford have worked tirelessly to bring in new chamber members and have met with exception success in all districts but they admit it is just about impossible to contact everyone, and wish any who have been overlooked to notify the office and they will be happy to call upon them and accept their membership.

An interesting report at the meeting will be that rendered by the Gold Cup regatta committee which will inform members how the chamber came out financially on the big annual event.

Tahoe City area is welcoming back two former Tahoe residents and their wee daughter, both having attended schools here and spent most of their young lives here. They are Mr. and Mrs. Arthur (Pete) Ables, who have been residing for the past few years in Roseville. Mrs. Ables is the former Ditty Bolton, and they are residing with her folks, the Jack Boltons of Tahoe Park, until they find a house to rent which is to their liking. Pete will be assisting Postmaster Oliver Corona in the local postoffice the year around from now on. Welcome home, youngtsers!

NORTH TAHOE

By JUDGE HARRY CHARRISON

The many friends of Virginia Leipertz will be happy to know that she took the marriage vows with John King both of Cal-Vada Lodge, Crystal Bay. They were married in Reno last Thursday, September 16. I am sure her many friends wish her and her husband the utmost in happiness in the many years to come.

Sam Faulkner was telling that his mother and dad have left for Santa Ana, down southern California way, and by all accounts have fallen in love with it. We shall miss his mother as she was an excellent church worker.

There will be a big meeting of the Lake Tahoe Sierra Chamber of Commerce at Cal-Vada Lodge on Tuesday, September 28, when a luncheon will be served at noon. Election of officers, who will serve for the 54-55 term, will be held. Big things are expected from the chamber, and you business people can make it do just that. If you would like to become a member call Jeanette Mitchell the new secretary at Tahoe City 386.

Glad to see Francis Wallace back from Sacramento where she was staying for a short while, with her son and family, and tells us of the progress of her six-year-old granddaughter who at that tender age is an excellent swimmer and naturally grandma was just thrilled to pieces. Francis will be moving to her home on the highway pretty soon, after spending a nice summer at her beautiful home down by the lake.

The H_ry Street family of Brockway Hill have been on a trip to Eugene, Ore., but for some reason their return has been delayed. I am informed that Tony, the Streets' beautiful daughter, has passed a state examination and will, if not already, be with the fish and game department.

Saw Father Brennan last week at Cal-Vada Lodge, fresh back from Emerald Isle. Father flew both ways and enjoyed it. He had a wonderful time while in his native land was also a visitor to London. Asked him about the weather and he said it was the worst in 47 years, rained every day but two or three. It was good to see him. Saw some beautiful Irish linen. I think it was for Helen Lewis.

Mr. and Mrs. Russell B. Farley, now of Sacramento, were up over the weekend and brought a nice new jeep, which he is breaking in for a big hunting trip in Nevada next month. It appears there will be about six in the party. Pity the poor deer.

Daven and Mrs. Morey were visitors at our home over the weekend bringing Daven, Jr., and Ann with them. Glad to hear that Mrs. Morey has been appointed head nurse at the Tahoe-Forest Hospital. She has been at the hospital for the past few years.

Well ,hunting season is here, according to Arnold Miedema, Daven Morey, and his two brothers are leaving on a hunting trip Friday just up around Portola way, sure hope these guys bring something back for a change.

The Tahoe Food Center, Bob Smith's place in Kings Beach, is going to be kept open all winter.

Andrew B. (Andy) Johnson, a long-time resident of Kings Beach, tells us that he is to be the representative for the Tahoe Area, of the Camco Enterprises, Incorporated, which I believe, will include the latest in TV. Get in touch with Andy and find out what it's all about.

Glad to see our friend Harry Stubley back after being away, hospitalized with a smashed finger. It is coming along good now and hopes only to have lost a nail.

Both the state and county are doing a swell job clearing the sides of our roads, which will mean giving a lot more space to push the snow off the main roads, and will tend to lessen the possibility of accidents, which have been on the increase in our area during the past year.

Very glad to know that Hugh Van Hooser is home from boot camp at San Diego, for a 10-davs' leave. He looks wonderful. No wonder that his parents are proud of him. It seems that all of the young men that enter the service from this area make an excellent showing. Yes, we can all be proud

Here we are almost into October and Tahoe is at its best as always. If only some of our visitors that come and go could enjoy it like the locals do.

Now we hear that little Timmy Misner has gone to military school down in San Rafael, and his mother and dad are both missing him like the dickens.

Mr. and Mrs. Cope had as their guests the past week: Mr. Cope's son and daughter-in-law from Alamagordo, N. M., also their sister and brother-in-law, Mr. and Mrs. C. J. Marmont from Atherton near Redwood City. They were so taken up with the lake that they intend to come back as soon as they can.

And while Tahoe welcomes home the Ables family, it bids a regretful farewell to one of its most esteemed pioneers, Mrs. Evelyn Bliss of Tahoe City. Tomorrow morning, Monday, the Norman Mayfields, with whom she has been visiting for the past few days, will take her to the Bay area where she plans to be the houseguest of an old friend, Mrs. Clare Black of Oakland, until she can find a suitable apartment. Just what her future plans are she herself does not know, but we are wishing her, along with her myriad of old friends here, the best of good luck in her new environment. She promises to come back in the summer time and visit, so it will not be the same as losing her permanently. And even before she has departed, the new owners of her home in town have taken possession. They are Mr. and Mrs. Jack Starratt who will find this new location, right across the street from the Village Store, most convenient, especially in winter when any roads of Tahoe are difficult to negotiate, piled high with snow. The Bliss house was completed a few days before Christmas back in 1913 and Judge and Mrs. Bliss resided there until his death in March of 1939. For the next eight years Mrs. Bliss served the Tahoe City area efficiently and fairly as Justice of the Peace in her husband's footsteps. She has gone out each year for five or six months during the winter for the past 15 years, but always returned with the robins in the spring to summer and care for her lovely garden of flowers. She took an active and sympathhetic interest in the affair of the com-

(Continued on Page 6)

World's first detergent-action* gasoline

Yours in both CHEVRON SUPREME GASOLINE CHEVRON GASOLINE

*Patent applied for

An *entirely new* kind of motor fuel that ends forever the biggest single cause of engine trouble! *Detergent-action* Chevron gasolines actually clean the carburetor in every gasoline engine you have, and keep it clean! Until now, carburetors had to be cleaned or adjusted every few thousand miles, because tiny bits of soot and gum in the air entering the carburetor built up deposits that caused rough idling, gas waste, and stalling at stop lights. Now, detergent-action cleans out these deposits while your engine is running, and prevents new deposits! Try detergent-action Chevron Supreme or Chevron gasoline.

Tahoe-Truckee School District News

DONNER TRAIL ELEMENTARY

We started the year out with 28 pupils, and as usual we have three times as many boys as girls.

We have a new cook this year. Her name is Mrs. Peterson, and by the way the food is put away all the children think that she is a real cook.

This week we made preparation for our year's work in social studies for our small group.

We are going to collect lumber for our houses and barns and outbuildings for our farm. Each child will bring some item for his part of uor farm scene.

Friday we rebuilt all the little chairs for the school. One group of boys tore down an old washing machine. We will all write an article telling the other children just what we did.

KINGS BEACH SCHOOL

Kindergarten and First Grade: In the kindergarten and first grade the school year has begun with 32 children. Of those, 25 are in the first grade, and 17 in the kindergarten. The unit of work on which we are to begin the year is the circus.

The first week of school was more specifically devoted to getting acquainted with other children in the room and the school and classroom routine.

Phil Thompson brought his pogo stick to school. We have fun with it on the playground.

Jill and Judy Robert brought their toy puppies to share with us.

Michael Dacus brought an oatmeal box. He is going to make a drum out of it to play in the rhythm band.

Miss Knudsen's class now has one more kindergartener and one less first grader. Joby Lewis is the new member of the class. Jimmy DePaola left with his family for Palm Springs.

We had several visitors this week. Our school nurse, Mrs. Patnoude, was here Thursday. Mr. O'Rourke visited our room Friday. He told us it was Citizenship Day. After he left, we discussed the things a good citizen does. These are some of the things we want to remember, especially at school:

Be careful on the playground.
Be a good sport.
Be a good friend.
Don't push in fire drills.

Second and Third Grades: There are 27 boys and girls in Mrs. Wing's classroom. Thirteen children are in the second grade and 14 children are in the third grade.

Mrs. Betty Peckham visited our class Thursday.

Bobby Ford brought his set of Robin Hood records to share with us.

Friday, September 17, was Citizenship Day. We had a discussion on good citizenship. We listed the following rules: (1) play fair; (2) obey school rules; (3) be polite; (4) share our things; (5) help each other; (6) think first, then act; (7) consider other boys' and girls' feelings; (8) protect school property; (9) be a good sport.

During our work and play we are going to practice these rules, so we will be good citizens.

Elizabeth Omlor has entered the second grade Monday.

Sally Jo DePaola moved to Palm Springs Thursday.

Fourth, Fifth and Sixth Grades: Our class is starting the year with 34 students. We have 13 in the 4th grade, 11 in the 5th grade, and 10 in the 6th grade. Our Social studies unit is about Canada.

SCHOOL NEWS

We have a new cook this year. Her name is Mrs. Virginia Wilson. Our new kindergarten—1st grade teacher, is Miss Elrose Knudsen. Joanna Johnson moved to Alhambra and Diane Davis moved to Oildale this week. Those getting 100 per cent in spelling on both the trial and final tests were: 5th grade, David Decker; 6th grade, Diane Ogle. There were nine 100 per cent marks for the final test.

High marks in arithmetic were scored by Dickie Cinani, David Decker, Linda Draney, and Joan Decker. We have been reviewing the basic fundamentals for the past two weeks.

Mr. O'Rourke, district superintendent, visited our class Friday.

TONINI WINNER IN GOLF MATCH

TAHOE CITY — Wonderful weather and a good crowd were the lot of members and guests who attended the annual Truckee Lions' Club Golf Tournament at Tahoe City Golf Links on Sunday. Hosts at the pre-meet at the new clubhouse were Angelo Besio of Truckee, Carl Bechdolt, Jr., and Joe Henry of Tahoe City. Pike Boehme did a marvelous job on barbecuing the lamb and a marvelous time was had by all.

Elden Tonini of Truckee was top gross score winner to take home the trophy with a 70; Lou Baysinger of Truckee brought in a 74 to win the low-net trophy 74—14-60 and Carl Bechdolt, Jr., took third with a 75. Net winner for the second year in a row was a tie between Elden Tonini and Joe Henry each receiving 63 net scores; Angelo Besio and Everett O'Rourke of Truckee tying with a 66 net scores next and Earl Stice of Truckee following with a 67 net. The hole-in-one on holes 9 and 18 was won by Jay Richards of Truckee, his ball about 7 feet away.

The guest flight was won by Capt. P. Holt of the navy, who is a member of the country's trickiest golf links, the Pine Valley Golf Course, with a 66 gross; Cy Williams of Alameda, former wrestler, came second with a 69. Low net guest flight score went to Bill Cechdolt of Tahoe City, 72—12-60 net with John Badura of Brockway next with 77—16-61 net.

A few more dollars were added to the Tahoe City Volunteer Fire Department's treasury by the hole-in-one contest held in conjunction with the other festivities.

Angie Bonino, local golf pro at Tahoe City links, will leave the end of the month for Reno where tentative plans call for him to resume his regular winter job of assistant pro at the Reno Golf links. Tahoe City Golf links will remain open as long as good weather permits.

NURSERY REGISTRATION

TAHOE CITY—Mrs. Elaine Wright, teacher in the Tahoe and Truckee cooperative nursery schools, reports 26 registered at Tahoe and 27 at Truckee. Tahoe children still need chairs and tables to accommodate the large class.

About 12,000 species of fossil insects have been described.

State Powerless To Inforce Safety Orders

SACRAMENTO (CNS)—State Attorney General Edmund G. Brown ruled that the State of California has no right to enforce industrial safety orders in Yosemite National Park.

The attorney general said the state, when it ceded the park to the federal government in 1919, did not reserve the right to require private employers within the park to comply with safety orders issued by the state department of industrial relations.

California wineries crushed 1,007,976 tons of the 1953 grape crop.

Public Works Group Plans Series Of Meets

SACRAMENTO (CNS) — State Senator John F. McCarthy of San Rafael, chairman of the senate interim committee on public works, announced the committee will hold a series of public hearings late in October.

McCarthy said the committee will gather testimony on the following subjects: General versus segregated bids and contracts; highway projects; use of state highway engineering services by other agencies; revision of state contracts; purchase of job materials by the state; creation of an organization and cost control agency in state government.

The meetings will be held in Sacramento, San Francisco and Los Angeles.

VETS ENTERTAINED AT WOMEN'S MEET

TAHOE CITY — The Women's Club of Tahoe brought to a close their summer social schedule with a luncheon honoring 13 veterans from the Veterans' Hospital in Reno on September 13. Also entertained wth the veterans were three women from the A.W.V.S. of Reno: Mrs. Harold Walters, Mrs. Julius Redelius and Mrs. Joseph Shaw.

The luncheon was held at the Sunnyside Boat Co. Soft drinks were donated by Harry Meads of Tahoe Park, and boat rides were given by Ralph Sears, owner of Sunnyside Boat Co.

The club met at Bacchi's Inn September 16 for a combined luncheon and meeting.

Butch Beavers from the forest service was guest speaker and cleared questions by speaking of the danger of fire in our national forests. There were two excellent movies shown concerning our forests.

The next meeting will be held at Bacchi's Inn, October 7, and reservations should be phoned to Tahoe City, 340, by October 5.

DATA ON WATER FOWL HUNTING IN STATE ANNOUNCED

California's waterfowl hunting season will open at noon on Oct. 9, run through November 13, reopen at noon on December 6, and close January 10, according to a decision of the California Fish and Game Commission. The dates were selected on the basis of options offered by the U. S. Fish and Wildlife Service.

Commission President William J. Silva, who made the announcement, pointed out that the two 36-day hunting periods represent an increase in the season of four days over last year.

Bag Limit

While the season was lengthened, the federal regulations curtailed the bag and possession limit by one duck. The California commission chose a daily bag and possession limit of 10 ducks, which must include at least three widgeons or three pintails or three in the aggregate of both kinds. Thus the 1953 basic limit of seven birds remains unchanged, but last year four so-called "bonus birds" could be taken in the interest of depredation control, instead of the three allowed this year.

This year the federal regulations include red-breasted and American mergansers in the regular duck limits. No special limits are set up for these birds. The daily bag limit may include not more than one hooded merganser and one wood duck.

The bag and possession limit on geese is six birds, which may include not more than three of the dark species. No Ross geese may be taken. In a full bag of six, there must be at least three Lesser Snow geese.

Shooting hours remain unchanged. Starting time on the first days of the split season will be noon. Other days shooting may start at one-half hour before sunrise, and must cease at sunset.

Wine Vinegar is the product of two fermentations—the first from natural grape sugar to grape alcohol, the second from grape alcohol to grape acetic acid.

NOTICE TO BIDDER

Notice is hereby given that sealed bids will be received by the Governing Board of the Tahoe-Truckee nified School District, Placer and Nevada Counties, California, at the Office of the Superintendent, Truckee, California, on or before, and no later than Tuesday, October 12, 1954, at 5 P.M. for a contract to furnish transportation for school children from Squaw Valley Lodge to Highway No. 89 at its intersection with the Squaw Valley Road in accordance with specifications on file in the office of the Superintendent of Schools.

The Governing Board reserves the right to reject any and all bids, in part or in total, to waive any irregularities, and to be the sole judge of the suitability of the contract offered.

Bidders are required to furnish bond, or certified check in an amount equal to ten per cent (10%) of the total bid.

By order of the Governing Board of the Tahoe-Truckee Unified School District

DENIS SACH, Clerk

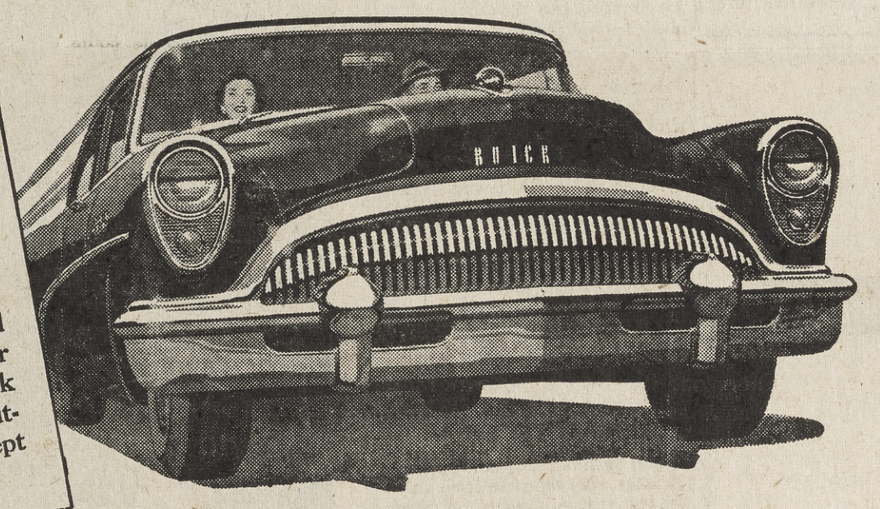
Take a look at the car

This is the beauty that's soaring to new success this year. This is the tomorrow-styled Buick that has record-high V8 power, big-car roominess, the solid comfort of the famed Million Dollar Ride, and sports-car response. Is it any wonder that Buick today—*regardless of price class*—outsells all other cars in America except *two* of the "low-price three"?



Take a look at the price

This Buick V8 costs just a few dollars more than the so-called "low-price three"!

The fact is, for just a few dollars *less* than some models of those "low-price three," you get in this Buick 2-door, 6-passenger Sedan a whale of a lot more automobile—more room, more comfort, more ride steadiness, more V8 power. And that "more automobile for your money" goes for every Buick in the line—the low-priced SPECIAL, the high-powered CENTURY, the extra-spacious SUPER, and the custom-built ROADMASTER. And the proof is in Buick's booming sales figures!

Take a look ahead

You want a car that will keep its style in the years ahead, and return more dollars when you sell it. That's today's Buick—for with the year-ahead styling that graces this winner—and with all the solid value built into this great automobile—you're bound to command a higher resale price when you sell it. Drop in—look over this beautiful buy—and learn the clincher: With our tremendous volume right now, we can offer you the top allowance on your present car. So you're way ahead on all counts!

No Wonder – Buick Sales are Soaring!

SWANEE'S LETTER

(Continued from Page 3)

munity, having served as president of the Women's Club of Tahoe, and administering the Red Cross aid to the needy in the lake area for years. And the Starratts, who moved down to town from the "hill" in the Bittencourt Tract, have in turn sold their home, the former Garner residence, to Mr. and Mrs. Dinty Moore of Tahoe City. Whose move is it next?

And down in Tahoe City, right next to Kehoe's Grocery, and across the street from the post office, a new edifice is under construction which will certainly give the city's main street a "new look," and marks the first new building in several years. The little old Wehrman house (last rented by Dr. Gorham as an office) has been moved back from the front of the street to the rear of the lot will be used temporarily for a tool shed and "catch-all." In front, William G. Cooke, if Walnut Creek and the Truckee river, owner of the Television Relay Company here, has started a new store building which will cost approximately $25,000 and which will include two stores 18x40 feet in size with a three-bedroom apartment upstairs. Cooke, his wife Jane and two children, Patricia and Douglas, will occupy the apartment during the winter season when they must close their summer home on the river, and will probably rent it in the summer time when they can again return to the Truckee. One of the stores will be occupied by his television company, which is making rapid strides in providing service to local residents, twelve customers already hooked up, and more waiting for the lines to be laid. Their main line comes from the hills near Squaw Peak, and service is now within a mile and a half of Tahoe City, Cooke reports. This choice piece of business property was purchased by Cooke within the last month from Howard Roloff. He hopes to get the building closed in before snow flies, after which finish work can be completed during the winter months.

Two Tahoe youngsters suffered painful, but not serious injuries, during the past week or so. Out at Lake Forest three-year-old Mike Dempsey, son of Mr. and Mrs. Lincoln Dempsey, in a burst of energy while playing next door, jumped from a flagstone porch, striking his forehead on a sharp obstacle which made a wound requiring Dr. George Hahn to take five stitches above the left eye at Tahoe Forest Hospital. The stitches have since been removed and little Mike is suffering no ill effects.

In Tahoe City on Saturday three-year-old Dorothy Pomin, daughter of the Robert Pomins, went calling with her folks to a neighbor's house. As she stooped to take a look at the family dog he sprang at her biting her on the lip and Dorothy had to be rushed to Dr. Sklar's office in Kings Beach, where she had four stitches taken to close the wound. Her older sister Duane, passed her 16th milestone on Saturday and attended the high school dance in Truckee. Congrats, Duane!

And forgot to mention that guests at the Lincoln Dempsey and Jake Stuart homes in Lake Forest recently were Mrs. Mary Dempsey of Vallejo, Linc's grandmother who is 81, and Mrs. Frances Callaghan, 93, of Watsonville, who is Linc's great-aunt. Both of these elderly ladies travel around the country like veterans, and they enjoyed a fling in Reno before arriving to spend the weekend here. While visiting at the Lincolns' they insisted on doing the dishes and all the housework and enjoyed every minute of their stay.

Mr. and Mrs. Verne Daniels have departed for Las Vegas where they spend their winters annually. They spent the summer here at Tahoe City. Mr. and Mrs. Malcolm Fox of Squaw Valley left for San Francisco on Sunday on a business trip, and will return Tuesday. They were the surprised honorees at a cocktail party and housewarming on Saturday night at their newly completed home in the valley, when about 40 friends descended upon them laden with gifts and gaiety. The Foxes will reside at Squaw all winter.

Mrs. Marie Henry of Tahoe City was pleasantly surprised last week when at long last there came an answer to her pleas for help in manning the airwatch in Tahoe City at the garage. First to come forward and volunteer was Chris Poulsen, 11, son of the Wayne Poulsens of Squaw Valley. Chris is a Boy Scout and thought he would like to do his bit at the local post. His offer was most welcome. Also volunteering at about the same time were Mrs. Ruth Mayfield and Mrs. Ann Anderson of Tahoe City. Both of these civic minded local citizens are veterans at the airwatch game, having put in literally hundreds of hours during World War II when Tahoe's airstation was located on the main highway in front of the Bechdolt houses, known in town as the Circle. Yours truly also did a 50-hour stint at that time, as did many of the town's men, women and children in the little green house, not much larger than a telephone booth! Their offers were gratefully accepted also. More watchers are needed, so if you can spare an hour or two once in awhile get in touch with Mrs. Henry.

Have one of those cheery messages from the meandering C. O. Valentines of Costa Mesa whose feet got to itching for another trip. This time they flew to Minneapolis for a week's visit, then on to Winnepeg, Canada, and from there to other Canadian towns, ending up at Vancouver where they celebrated their wedding anniversary last year on September 28 and will repeat the pleasant occasion again this year. From there they go to Portland and San Francisco before returning to their Costa Mesa home.

Attendance continues good at the Catholic Corpus Christi Chapel near the tavern each Sunday where two masses are still being held regularly, at 8 and 11 a.m. Father Ronan Brennan, assistant pastor in Truckee, who returned from an extended visit to Ireland on Thursday last, greeted old friends at the Lions' Club Golf Tournament at Tahoe City golf links Sunday. He said his all-summer stay was most enjoyable.

Building activities at Tahoe have been slow this summer, but Contractor Martin Spitsen of Tahoe City is busily engaged on two beautiful new homes on the lakeshore, started during the past few weeks. One is for the Larry Harts of Dallas, Texas, who purchased 300 feet of choice lakeshore property of the old Drum estate near Meeks Bay. Spitsen is erecting a three-bath, four-bedroom home for them which will boast approximately 2500 square feet of floor space and will cost in the neighborhood of $35,000. Spitsen and his large crew of workers hope to get the building closed-in before snowfall and finish work can then be completed in the early spring. The second home now under way is that of the Harold Nachtriebs of the Bay area, whose new home is in the Rubicon region on the lakeshore. Spitsen has under way their three-bedroom residence which will boast several fireplaces and lots of picture windows and which should be, completed, with good luck and good weather, by the end ofNovember. The Henrikson Brothers did the excavation for both foundations and William Wurster, dean of architects at University of California, was the designer.

Then up near Granlibakken the foreign students of International House, San Francisco, are eagerly lending their help each weekend in erecting their new ski lodge which will house 44 persons and should be completed for use this winter. From 16 to 20 of them arrive each weekend and under the watchful eyes of Al Steltzner work full steam ahead. This new project will do much to advertise and popularize the skiing area.

Rusty Rustad reminds me that John Gorham, 12-year-old son of Mrs. Rustad, and student at Tahoe Lake School, yesterday broke all known records for youngsters (that I have heard of!) when he waterskied a distance of 14½ miles continuously in 32 minutes, arriving in good shape at his destination. Rusty towed the sturdy lad behind his Chris Craft Sportsman from the pier at Homewood Resort to the pier within the bay at Glenbrook, an outstanding accomplishment we'd say for a 12-year-old, 90-pound lad! Do any other Tahoe youngsters have records to equal, or surpass this one? Let's hear from you, if you do.

Among prominent Tahoeites who have closed up their homes and left for the season are the Maxwell Miltons, returned to their Piedmont home; Dr. and Mrs. Henry Searles of Carnelian Bay, back once more in their San Francisco home, and the Charles de Brettevilles and the W. W. Meins, all returned to the peninsula.

Ring off for the week with prayer that this gorgeous spring-like fall weather continues for a month! It's my favorite time of year at Tahoe. Best of everything to you all. As ever, SWANEE.

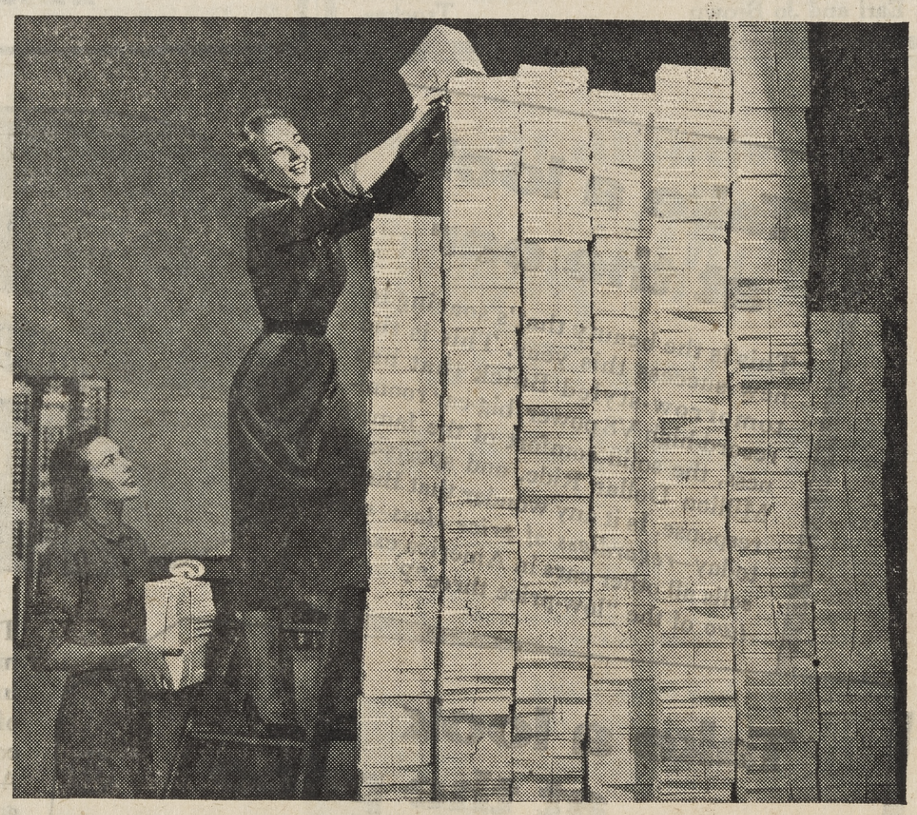
AS GENERAL ELECTRIC SEES IT...

New products created 45,000 G-E jobs in the last nine years

And hundreds of new ideas are now being developed to keep employment high and help America live better



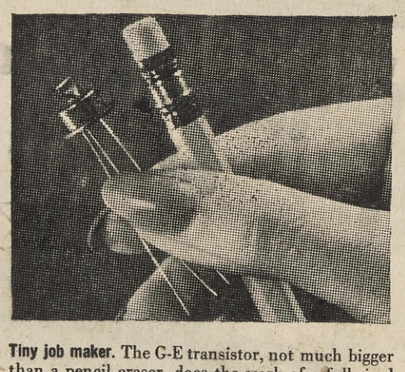
Tower of time cards shows jobs created by new G-E products. In a single pile, they'd reach 5 stories high.

One out of every five people working at General Electric owes his job to products G. E. didn't make before 1945.

Will coming years bring as much progress?

Actually, we believe there will be more. Many exciting possibilities are predictable as we learn how to make full use of atomic energy. Another important new development will be electronic machinery which will make work easier, production swifter—and create more jobs. New uses for gas turbines promise improved air, rail and ship transportation, and better power plants for industry. Research will make home appliances even more helpful.

All these fields—and many others—are so promising that we expect to produce more in the next ten years than in all the previous 75 years of our existence. As we see it, in a free economy, America's industrial progress is not only continuing, it's rapidly accelerating.



Tiny job maker. The G-E transistor, not much bigger than a pencil eraser, does the work of a full-sized vacuum tube. It makes possible a wide variety of new electronic devices which will make your life more pleasant in the future and give employment to thousands of people.

Progress Is Our Most Important Product

Wardens Will Be Busy Saving Foolish Nimrods

Saving hunters from themselves will keep Department of Fish and Game wardens busy during the hunting season, past records indicate.

Last year, a total of 1200 hunters were arrested for carrying loaded guns in vehicles. Despite the warden's efforts, this brand of carelessness still caused four of the year's 59 recorded hunter caualties.

Six hunters lost their lifetime hunting privileges during 1953, under a new law which revokes a man's license for life is he carelessly shoots another human being. Other cases are pending. The law requires the department to report all such hunting accidents to local district attorneys for action.

AFFAIRS OF STATE

by Henry C. MacArthur

SACRAMENTO (CNS)—A new concept in the submission of initiative petitions calling for huge expenditures of public monies is envisioned as the result of a statement made recently by Gov. Goodwin J. Knight, who announced that some day, he's going to make a speech about the subject.

The governor had reference to initiatives placed on the ballot which require public money, yet make no provision at all for financing such expenditures.

The governor hopes that the people of the state will consider this problem when they go to the polls next November. He declares the past policy of calling upon the state to provide money without saying how the money shall be raised is "bad government, and is bound to bring repercussions in the future."

"The time has arrived," he said, "when we must stop playing ostrich with regard to state money and state services. This time has come when state officials and others have the courage to tell the people the truth with regard to money.

"Once the people know the truth, they will vote right. And the day will come when people vote new or expanded services, they will have to provide the funds to carry out these services."

The governor placed in the category of bad government initiatives two specific measures.

The first was the increase in average daily attendance allotments made to school districts, which was promoted and placed on the ballot by the politically powerful California Teachers Association. This measure carried by a wide margin, and as a result, California's tax bill was increased by approximately $100,000,000 annually.

The governor had no objection to the measure, or the purposes for which it was intended, his primary objection bieng to the fact that there is no responsibility for providing the additional revenue in the initiative itself.

The second comment he made was in connection with the plan of George McLain, Los Angeles pension promoter, to increase old age assistance to $100 minimum per month. He indicated that no doubt an increase was in order, but on the other hand, the McLain proposal, on the November ballot, makes no provision whatever to provide the approximately $70 million annually its passage will cost the taxpayers of the state.

Even without the McLain proposal, the administration has not ruled out the possibility of new or increased taxes next year, although Knight is hopeful that they can be avoided. There are many "ifs" however, to be taken into consideration if the taxpayers are to be continued on the same basis as this year.

One is the question of whether or not the state gets back impounded tideland oil revenue from the federal government, as it must have cash in hand before the money can be used. And another if is whether should the state get the tideland money before January, the state legislature will vote to disburse all or a good portion of it into the state's general fund for operational uses.

Still a third "if" is whether the state's revenues under the present tax set-up will continue to hold up, for a business recession could do much toward killing off the hope that new taxes will be unnecessary.

Newspaper Week Gets Governor's Approval

SACRAMENTO (CNS) — Gov. Goodwin J. Knight has proclaimed the first week in October as Newspaper Week in California.

The governor's proclamation in point said:

"The perpetuation of a free press is a guarantee of human liberty and personal freedom in our beloved land, for as long as our press is unfettered, we are free. The sovereignty of the people and freedom of the press are inseparable. When either is subjugated to tyranny or oppression, the other perishes.

"A wise man once said, "Let it be impressed upon your minds, let it be instilled into your children, that the liberty of the press is the palladium of all the civil, political and religious rights.' In view of our constitutional guarantees of human liberty and personal freedom in this great Republic, this is a reassuring thought."

The Mount Dana-Minarets Wild Area is in the Inyo and Sierra National Forests.

NOTICE TO VOTERS

NOTICE IS HEREBY GIVEN to the electors of the State of California that the following Bond Act will be submitted to the People of the State of California for their ratification at the next general election to be held on the second day of November, A.D., 1954.

FRANK M. JORDAN,
Secretary of State.

FOR THE VETERANS BOND ACT OF 1954.

This act provides for a bond issue of one hundred seventy-five million dollars ($175,000,000) to be used by the Department of Veterans Affairs in assisting California war veterans to acquire farms and homes.

1

AGAINST THE VETERANS BOND ACT OF 1954.

This act provides for a bond issue of one hundred seventy-five million dollars ($175,000,000) to be used by the Department of Veterans Affairs in assisting California war veterans.

This proposed law, by act of the Legislature passed at the 1954 First Extraordinary Session, is submitted to the people in accordance with the provisions of Article XVI of the Constitution.

(This proposed law does not expressly amend any existing law; therefore, the provisions thereof are printed in BLACK-FACED TYPE to indicate that they are NEW.)

PROPOSED LAW

An act to add Article 5e to Chapter 6 of Division 4 of the Military and Veterans Code, authorizing the creation of a debt or debts, liability or liabilities, through the issuance and sale of state bonds, to create a fund to provide farm and home aid for veterans in accordance with the provisions of the Veterans Farm and Home Purchase Act of 1943 and acts amendatory and supplemental thereto; defining the powers and duties of said committee and of the Department of Veterans Affairs and other state officers in respect to the administration of the provisions hereof; providing ways and means, exclusive of loans, for the payment of the interest of such debt or debts, liability or liabilities, as such interest falls due, and also for the payment and discharge of the principal of such debt or debts, liability or liabilities, as such principal matures; and providing for the submission of this act to a vote of the people at the general election to be held in the month of November, 1954.

The people of the State of California do enact as follows:

Section 1. Article 5e is added to Chapter 6 of Division 4 of the Military and Veterans Code, to read:

Article 5e. Veterans Bond Act of 1954

996.25. This article may be cited as the Veterans Bond Act of 1954.

996.26. For the purpose of creating a fund to provide farm and home aid for veterans in accordance with the provisions of the Veterans Farm and Home Purchase Act of 1943 and of all acts amendatory thereof and supplemental thereto, the Veterans' Finance Committee of 1943, created by Section 991, shall be and it hereby is authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the manner and to the extent hereinafter provided, but not otherwise, nor in excess thereof.

996.27. After adoption of any resolution by the Veterans' Finance Committee of 1943, provided for in Section 996.34 the State Treasurer shall arrange for the preparation of the requisite number of suitable bonds in accordance with the specifications contained in such resolution. The aggregate par value of all bonds issued under this article shall not exceed the sum of one hundred seventy-five million dollars ($175,000,000) and shall bear interest at a rate not exceeding 5 percent per annum payable as provided in such resolution. Both principal and interest shall be payable in lawful money of the United States, at the Office of the State Treasurer, or at the office of any duly authorized agent of the State Treasurer.

All bonds issued under this article shall bear the facsimile signature of the Governor and the facsimile countersignature of the Controller and shall be endorsed by the State Treasurer either by original signature or by a signature stamp, and the bonds shall be signed, countersigned, and endorsed by the officers who shall be in office on the date of adoption of the resolution of the Veterans' Finance Committee of 1943, and each of said bonds shall bear an impress of the Great Seal of the State of California. Interest coupons attached to each bond shall bear the facsimile signature of the State Treasurer who shall be in office on the date of adoption of the resolution of the Veterans' Finance Committee of 1943. The Veterans' Finance Committee of 1943 may require that said bonds be authenticated by the State Controller or by any Deputy State Controller, and in such event no bond authorized hereunder shall be valid unless so authenticated in the manner so required. The bonds or coupons so signed, countersigned, endorsed, and sealed, when sold, shall be and constitute a valid and binding general obligation upon the State of California, although the sale or delivery thereof be made at a date or dates upon which the officers having signed, countersigned, and endorsed said bonds or coupons, or any or either of said officers, shall have ceased to be the incumbents of the offices held by them at the date of adoption of the resolution of the Veterans' Finance Committee of 1943. Each bond issue under this article shall contain a clause or clauses referring to this article and to the resolution of the Veterans' Finance Committee of 1943 hereunder by virtue of which said bond is issued, and if subject to call or redemption prior to maturity, shall contain a recital to that effect.

996.28. The State Treasurer shall, on the respective dates of maturity or prior redemption of said bonds, or as soon thereafter as said bonds are surrendered to him, pay the same out of the proceeds of the Controller's warrants drawn in his favor as provided in Section 996.29 and perforate the bonds so paid with a suitable device in a manner to indicate such payment and the date thereof. The State Treasurer, or his duly authorized agent, shall also, on the respective dates of maturity, cancel all bonds and appurtenant coupons bearing said dates of maturity and remaining unsold, by perforation with a suitable device in a manner to indicate such cancellation and the date thereof; provided, however, new bonds may be prepared and executed in lieu of bonds canceled solely by reason of the fact that such bonds have not been sold prior to their fixed maturity dates, whenever the Veterans' Finance Committee of 1943 shall determine such new bonds shall be prepared and executed, subject to the condition the total indebtedness created hereunder shall not exceed the maximum limit herein specified. Not less than four years after the final maturity date of a particular issue of bonds, the State Treasurer, or his duly authorized agent, may destroy or cremate any bonds of such issue which have been previously paid or canceled as hereinbefore provided.

996.29. All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof. There is hereby appropriated from the General Fund in the State Treasury such sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this article, as said principal and interest become due and payable.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the State, as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collections of said revenue, to do and perform each and every act which shall be necessary to collect such additional sum.

On the several dates of maturity of said principal and interest in each fiscal year, there shall be returned into the General Fund in the State Treasury, all of the money in the Veterans' Farm and Home Building Fund of 1943, not in excess of the principal of and interest on the said bonds then due and payable, except as hereinafter provided for the prior redemption of said bonds, and, in the event such money so returned on said dates of maturity being less than the said principal and interest then due and payable, then the balance remaining unpaid shall be returned into the General Fund in the State Treasury out of said Veterans' Farm and Home Building Fund of 1943 as soon thereafter as it shall become available, together with interest thereon from such dates of maturity until so returned at the same rate as borne by said bonds, compounded semi-annually.

Both principal and interest of said bonds shall be paid when due upon warrants duly drawn against said appropriation from the General Fund by the Controller of the State in favor of the State Treasurer, or his duly authorized agent, and the money to be returned into the General Fund in the State Treasury pursuant to the provisions of this section shall likewise be paid as herein provided upon warrants duly drawn by the Controller. The Department of Veterans Affairs, by resolution approved by the Veterans' Finance Committee of 1943, shall direct the State Treasurer to call bonds (which are then subject to redemption) if such call is desirable and whenever funds are available to effect such redemption, the part of each issue so called to be not less than all of the bonds maturing in any one year. Notice of such redemption shall be given by the State Treasurer in the manner provided in the resolution authorizing the issuance of said bonds.

996.30. The bonds authorized to be issued under this article shall be sold by the State Treasurer to the highest bidder for cash, either at public auction or upon sealed bids as the Veterans' Finance Committee of 1943 may by resolution determine. The Treasurer must reject any and all bids for said bonds, or for any of them, which shall be below the par value of said bonds so offered plus the interest which shall have accrued thereon between the date of purchaser's payment for said bonds and the last preceding interest maturity date; and the Treasurer may from time to time, by public announcement at the place and time fixed for the sale, continue such sale, as to the whole of the bonds offered, or any part thereof offered, at such time and place as he may select. If said bonds are offered for sale upon sealed bids, then each bid shall be in writing and signed by the bidder and sealed, and shall be accompanied by the deposit of a certified check or cashier's check for five thousand dollars ($5,000), drawn on a bank or trust company authorized to transact and transacting business in the State of California, payable to the Treasurer of the State of California, such deposit not to bear interest. The deposit of each unsuccessful bidder shall be returned to him immediately upon the nonacceptance of his bid, and the deposit of the successful bidder shall immediately upon the acceptance of his bid become and be the property of the State of California and be placed in the State Treasury to the credit of the Veterans' Farm and Home Building Fund of 1943, and shall be credited to the successful purchaser upon the purchase price of the bonds bid for in case such purchase price is paid in full by him within the time mutually agreed upon between the successful bidder and the Treasurer. If the purchase price is not so paid, the successful bidder shall have no right in and to said bonds or by reason of said bid, or to the recovery of said deposit accompanying said bid, or to any allowance or credit by reason of such deposit unless it shall appear that the bonds would not be validly issued if delivered to the purchaser in the form and manner proposed. In case the purchase price is not so paid, the bonds so sold but not paid for shall be resold by the State Treasurer upon notice as provided in case of original sale.

Temporary or interim bonds, certificates, or receipts of any denomination whatever and with or without coupons attached thereto, to be signed by the State Treasurer, may be issued and delivered until the definitive bonds are executed and available for delivery. Signature of the State Treasurer may be by signature stamp.

996.31. Due notice of the time and place of sale of all bonds shall be given by said Treasurer by publication in one newspaper published in the City and County of San Francisco and also by publication in one newspaper published in the City of Sacramento and by publication in one newspaper published in the City of Los Angeles once a week during two weeks prior to such sale. In addition to the notice last above provided for, the State Treasurer may give such further notice as he may deem advisable, but the expense and cost of such additional notice shall not exceed the sum of five hundred dollars ($500) for each sale so advertised. The proceeds of the sale of such bonds and such amount as may have been paid as accrued interest thereon shall be forthwith paid over by said Treasurer into the Veterans' Farm and Home Building Fund of 1943 and must be used exclusively in aiding veterans in the acquisition of, or payments for, farms and homes, in accordance with the provisions of this chapter; provided, that the proceeds from the sale of said bonds may be used to pay the debt created by the issuance and sale thereof.

996.32. The Department of Veterans Affairs is authorized, with approval of the Department of Finance, to invest any surplus money in the Veterans' Farm and Home Building Fund of 1943 in bonds or obligations of the United States, or of the State of California, or of the several counties or municipalities or other political subdivisions of the State of California, and to sell such bonds, or obligations, or any of them, at the governing market rates, upon approval of the Department of Finance; or the Department of Veterans Affairs may, with the approval of the Director of Finance, invest money in such fund, in interest-bearing certificates of deposit of state banks having a paid-up capital of five hundred thousand dollars ($500,000) or more; provided, the total amount of money so deposited with any one bank shall not exceed a sum equal to 50 percent of the paid-up capital of such bank; provided, however, nothing herein contained shall inhibit the depositing in banks in accordance with Chapter 4, Part 2, Division 4, Title 2 of the Government Code, of moneys of any of the funds subject to the control of the Department of Veterans Affairs or appropriated for its use.

Interest accruing upon the deposit of money of the Veterans' Farm and Home Building Fund of 1943 shall be paid into and credited to said fund.

996.33. Upon request of the Department of Veterans Affairs, supported by a statement of the plans and projects of said department with respect thereto, and approved by the Governor, the Veterans' Finance Committee of 1943 shall determine whether or not it is necessary or desirable to issue any bonds authorized under this article in order to carry such plans and projects into execution, and, if so, the amount of bonds then to be issued and sold. Successive issues of bonds may be authorized and sold to carry out said plans and projects progressively, and it shall not be necessary that all the bonds herein authorized to be issued shall be sold at any one time.

996.34. Whenever the Veterans' Finance Committee of 1943 shall have determined that the sale of all or any part of the bonds authorized to be issued under this article is necessary or desirable to carry such plans into execution, in whole or in part, it shall adopt a resolution to this effect. The said resolution shall authorize and direct the State Treasurer to provide for the preparation of the requisite number of suitable bonds then authorized to be sold and shall specify as to such bonds then to be sold:

1. The maximum number of each denomination or denominations, aggregate par value, and the date of the bonds to be then sold. The date appearing on said bonds shall be deemed to be the date of issuance for all purposes of this article, irrespective of the actual date of delivery of such bonds and the payment of the purchase price thereof. Successive issues of bonds herein authorized shall be identified by the number of the issue, or the entire authorized issue may be divided into series or divisions appropriately identified by letter or number.

2. The date or dates of maturity, and the number and numerical sequence of the bonds maturing at each date of maturity, to be at annual intervals.

3. The provisions, if any, for the retirement of said bonds at any time or times prior to their maturity, the manner thereof, and the price or prices at which said bonds shall be redeemed.

4. The annual rate of interest which the bonds to be issued shall bear, to be in multiples of one-fourth of 1 percent, which rate, at the discretion of said committee, may be determined by the bidder at the time of sale of said bonds, not to exceed 5 percent payable as herein provided.

5. The provisions, if any, for the interexchange of bonds of different denominations, the issuance of new bonds of different denominations in lieu of, or in exchange for, bonds of a like aggregate principal amount but of different denominations, and the authentication of any bonds by the State Controller or by any Deputy State Controller.

6. The technical form and language of said bonds and of the interest coupons to be attached thereto.

In determining the date or dates of maturity of the said bonds and the amount of bonds maturing at each date of maturity, the Veterans' Finance Committee of 1943 shall be guided by the amounts and dates of maturity of the revenues estimated to accrue to the Veterans' Farm and Home Building Fund of 1943 from the transactions to be financed by each issue, and shall fix and determine said dates and amounts in such manner that, together with the dates and amounts of interest payments on the said bond issue, they shall coincide, as nearly as practicable, with the dates and amounts of such estimated revenues; provided, the bonds first to mature in each issue shall mature not later than five years and the bonds last to mature in each issue shall mature not later than 45 years from the date of issuance thereof.

The rate of interest to be borne by the bonds need not be uniform for all bonds of the same issue or series or division, and may be determined and fixed by the Veterans' Finance Committee of 1943 by resolution adopted at or after the sale of said bonds, but not exceeding in any case 5 percent per annum payable semiannually. The highest bid received on the sale of the bonds shall be determined by deducting the total amount of the premium bid (if any) from the total amount of interest which the State would be required to pay from the date of the bonds or the last preceding interest payment date, whichever is latest, to the respective maturity dates of the bonds then offered for sale at the coupon rate or rates specified in the bid, and the award shall be made on the basis of the lowest net interest cost to the State. The lowest net interest cost to the State shall be computed on a 360-day year basis. The interest coupon first payable may, if the Veterans' Finance Committee of 1943 shall so determine and specify, be payable at any time within one year after the date of issuance of said bonds.

996.35. All actual and necessary expenses of the Veterans' Finance Committee of 1943 and of the members thereof incurred in the performance of their duties arising out of the provisions of this article and expenses incurred by the State Treasurer in having said bonds prepared and in advertising their sale or their prior redemption shall be paid out of the Veterans' Farm and Home Building Fund of 1943, on Controller's warrant duly drawn for that purpose, and shall constitute expenses of the Department of Veterans Affairs.

Whenever the Veterans' Finance Committee of 1943 deems it advisable to obtain a legal opinion as to the validity of the bonds, prior to or after sale, from attorneys other than the Attorney General, the committee may authorize the State Treasurer or the Department of Veterans Affairs or both to obtain such a legal opinion. Payment for such legal services shall be made from the Veterans' Farm and Home Building Fund of 1943, on Controller's warrant duly drawn for that purpose, and shall constitute expenses of the Department of Veterans Affairs.

996.36. The Controller, the Treasurer and the Veterans' Finance Committee of 1943 shall keep full and particular account and record of all their proceedings under this article, and they shall transmit to the Governor an abstract of all such proceedings thereunder, with an annual report, to be by the Governor laid before the Legislature biennially; and all books and papers pertaining to the matter provided for in this article shall at all times be open to the inspection of any party interested, or the Governor, or the Attorney General, or a committee of either branch of the Legislature, or a joint committee of both, or any citizen of the State.

996.37. So long as any bonds authorized under this article may be outstanding, the Director of the Department of Veterans Affairs shall cause to be made at the close of each fiscal year, a survey of the financial condition of the Division of Farm and Home Purchases, together with a projection of the division's operations, such survey to be made by an independent public accountant of recognized standing. The results of such surveys and projections shall be set forth in written reports and said independent public accountant shall forward copies of said reports to the Director of the Department of Veterans Affairs, the members of the California Veterans Board, and to the members of the Veterans' Finance Committee of 1943. The Division of Farm and Home Purchases shall reimburse said independent public accountant for his services out of any funds which said division may have available on deposit with the Treasurer of the State of California.

Sec. 2. This act shall take effect upon its adoption by the people as to all its provisions except those relating to and necessary for its submission to the people, and for returning, canvassing, and proclaiming the votes, and as to said excepted provisions this act shall take effect immediately.

Sec. 3. This act shall be submitted to the people of the State of California for their ratification at the next general election, to be held in the month of November, 1954, and all ballots at said election shall have printed thereon and in a square thereof, the words: "For the Veterans Bond Act of 1954," and the same square under said words the following in eight-point type: "This act provides for a bond issue of one hundred seventy-five million dollars ($175,000,000) to be used by the Department of Veterans Affairs in assisting California war veterans to acquire farms and homes." In the square immediately below the square containing such words, there shall be printed on said ballot the words, "Against the Veterans Bond Act of 1954," and in the same square immediately below said words, in eight-point type shall be printed "This act provides for a bond issue of one hundred seventy-five million dollars ($175,000,000) to be used by the Department of Veterans Affairs in assisting California war veterans." Opposite the words "For the Veterans Bond Act of 1954" and "Against the Veterans Bond Act of 1954," there shall be left spaces in which the voters may place a cross in the manner required by law to indicate whether they vote for or against said act, and those voting for said act shall do so by placing a cross opposite the words, "For the Veterans Bond Act of 1954" and those voting against the said act shall do so by placing a cross opposite the words "Against the Veterans Bond Act of 1954." Provided, that where the voting of said general election is done by means of voting machines used pursuant to law in such manner as to carry out the intent of this section, such use of such voting machines and the expression of the voters' choice by means thereof, shall be deemed to comply with the provisions of this section. The Governor of this State shall include the submission of this act to the people, as aforesaid, in his proclamation calling for said general election.

Sec. 4. The votes cast for or against this act shall be counted, returned and canvassed and declared in the same manner and subject to the same rules as votes cast for state officers; and if it appear that said act shall have received a majority of all the votes cast for and against it at said election as aforesaid, then the same shall have effect as hereinbefore provided, and shall be irrepealable until the principal and interest of the liabilities herein created shall be paid and discharged, and the Governor shall make proclamation thereof; but if a majority of the votes cast as aforesaid are against this act then the same shall be and become void.

Sec. 5. It shall be the duty of the Secretary of State in accordance with law to have this act published in at least one newspaper in each county, or city and county, if one be published therein, throughout this State, for three months next preceding the general election to be held in the month of November, 1954. The costs of publication shall be paid out of the General Fund, on Controller's warrants duly drawn for that purpose and shall be refunded to the General Fund out of the Veterans' Farm and Home Building Fund of 1943. Said refund shall be made upon Controller's warrants duly drawn against said fund for said purpose upon demands audited by the State Department of Finance.

Dear Editor:

. . . the letters start. Then from all over the free world come such comments as these from readers of THE CHRISTIAN SCIENCE MONITOR, an international daily newspaper:

"The Monitor is must reading for straight-thinking people. . . ."
"I returned to school after a lapse of 18 years. I will get my degree from the college, but my education comes from the Monitor. . . ."
"The Monitor gives me ideas for my work. . . ."
"I truly enjoy its company. . . ."

You, too, will find the Monitor informative, with complete world news. You will discover a constructive viewpoint in every news story. Use the coupon below.

William Prestons Are Parents Of Daughter

Mrs. A. E. Burlingham received an announcement yesterday from Mr. and Mrs. William Preston telling of the arrival of their first daughter at Oxnard, Cal., on August 1.

The little girl who was welcomed by three brothers, has been named Pamela Ann and weighed 6 pound and 4 ounces. The family formerly lived here. Preston is in the U. S. Navy.

THANKS

We wish to thank the voters who expressed their confidence in us at the recent Truckee Sanitary Board election.

THREE ACCIDENTS IN THIS DISTRICT

Three motor vehicle accidents, in one of which a driver was taken to the Tahoe Forest Hospital with major injuries, were reported by the California Highway Patrol during the past week.

Theodore Seaholm, Reno, suffered major injuries and was taken to the hospital by Truckee ambulance after his car went out of control just west of Soda Springs Sunday evening at 7 o'clock and left the highway. Seaholm was cited by Patrolman Martin Sturcke for speeding, being on the wrong side of the road and not having his vehicle under control.

Joseph Silveria of Reno was cited for being on the wrong side of the center line after his car and one operated by Judge Kagle, Sr., of Kings Beach, collided on the Brockway shortcut last Thursday at 11:30 p.m. Neither driver was hurt. Patrolman Sturcke made the investigation.

Minor injuries were suffered by Andrew J. Creech, Sun Valley, when his car was forced off the highway one mile west of Norden Monday morning at 9 o'clock. Patrolman Roy Stallard made the investigation.

Drivers have been warned by Sgt. Ed Freeman that this week traffic will be exceptionally heavy due to the opening of the hunting season and he asked that everyone use more than usual caution.

Kearney Has Highest Praise For Truckee

F. F. Kearney of Sacramento district who will be 80 years old next month and lived 77 of them here was a local visitor on Saturday with Mr. and Mrs. Larry White and son, Larry. He had hoped to see some of his old friends while attending the State Fair but had no luck. A Nevada City man was in charge of the county's booth and to quote Mr. Kearney:

"This is a wonderful state but the sun shines a little brighter in Truckee than in any place in the state."

Kearney vows that a little of the local sunshine arrives by mail every Friday morning with the Sierra Sun.

TAHOE MAN SEEKS DAMAGE FOR CRASH

RENO—Charging that he was hit and seriously injured by a vehicle at Lake Tahoe last year, Karl Bohme has filed suit in district court against Cal Neva Lodge, Inc. and Irwin J. Schwartz, an employe of the organization.

Bohme, who filed with Eloise Bohme, his wife, asked the court to award him a total of $56,631.75 for injuries that he suffered and medical attention that has been required by the accident.

The complaint said that Bohme was crossing a street at Lake Tahoe when he was struck by a vehicle driven by Schwartz. He said that he was knocked down and suffered a broken hip and leg. The accident occurred on September 7, 1953, the court was told.

Filing for damages also was Mrs. Bohme, who seeks $5000 for the loss of the society and services of her husband.

Dog Team Collides With Car, No One Is Injured

Well, it was probably bound to happen sooner or later.

Sunday night Lloyd Van Sickle took his team of nine sled dogs with which he hopes to capture the derby in Alaska this winter, out for a whirl. As they towed their sled at a high rate of speed near the Bridge street railroad crossing, a car driven by Daven Morey was proceeding quietly along its way. The dogs evidently did not see the vehicle and the sled smacked into the car, tossing Van Sickle up onto the hood and causing Mrs. Morey to leave her seat and wind up on the floor of the car.

No one was injured and both vehicles were undamaged, but the mishap probably marked the first crash of its kind.

Fran Couillard Urges Gift Of Safety Matches

by FRAN COUILLARD

Having recently suffered the effects of a fire of total destruction we are reminded that a trying period faces the U.S.F.S. and all of us—deer opening season and dry forests!

Each of you in someway or another will be in contact with a deer hunter—if you're not one yourselves! How about handing him (or her) a package of Safety Matches? This gesture might serve as a better reminder than all the "lectures" you can put forth. Safety matches cost but a penny a box! And in this instance a penny might be a forest saved! Good hunting!

ANCIENT PAPERS FOUND IN HOUSE

While renovating the former F. A. Titus house on Church street this week, Lennie LaCoe found two copies of the old New York Weekly, dated 1908 and 1909. The papers, used as padding under stairway carpeting, were in perfect state of preservation and quite entertaining. One was addressed "Franzini" indicating it may have been once the property of the late Pomp Franzini, pioneer Truckee resident.

HAS BIRTHDAY

John Firpo who was 13 years old on September 20 was feted at a family party at the home of Mr. and Mrs. I. Firpo and included Allen Young as a guest of the occasion.

New Jaguar—
Dr. and Mrs. George Hahn are driving a new, dark green Jaguar roadster which replaced the one wrecked a few weeks ago in an accident near Boca.

September Born—
George Kaspian was another birth date celebrant last week.

Guest in City—

Eastern Visitors—
Mr. and Mrs. Omar Alexander, and daughter, Patty, and Mrs. Irma Strang and son, Jerry of Sierraville were visitors in Nebraska earlier this month.

Dancing Time—
Everyone is invited to take part in the folk and square dancing to take place in the Veterans Memorial Hall, Friday evening at 7:30 p.m. An experienced caller from Reno will be present and beginners are welcome.

EDMUNDS ATTENDS POLLUTION SESSION

C. Edmunds, member of the district pollution board, Tuesday attended a meeting at Sacramento called to discuss various phases of legislation proposed by Senator Charles Brown of Inyo County relative to establishment of a camping fee for those using the recreational areas of the state.

It is proposed to use the funds, suggested to be $1 per year for camping privileges, to maintain sanitary conditions in authorized camping areas.

No decision was reached at the meeting, but the matter may be presented in the form of a bill before the next session of the legislature after various ramifications and details have been worked out.

Ronnie Walker Feted At Birthday Party

The fifth birth date of Ronnie Walker was celebrated at a party given at the home of his parents, Mr. and Mrs. James Walker on Monday afternoon.

The hostess was assisted by Mrs. Daryl McGihon in entertaining members of the young set with garden games before a special cake and ice cream were served. Those invited were Judy Wakefield, Larry Digesti, Twila Lee Barber, Jerry and Monte Neugebauer, Bruce Leamon, Susie Olano, Kathy and Mike Lee, Kathy Braasch, Chris Kumle, Karen Hedlund, Gail Englehart, Randy and Linda Russell, Cathy Street, Karen and Terry Walker.

In New Jersey—
Mrs. Hugh Smith is substitute teacher of the second grade in the Truckee Elementary School this week, taking the place of Mrs. Ed Trask. Mrs. Trask and son, Donald, went by automobile to attend the wedding in New Jersey of her son, Rev. Richard Trask.

First Meeting Of PTA Held At High School

The first evening session for mothers of the Truckee Parent Nursery School was held Monday night at the high school. Topics discussed included plans for a food sale to buy toys and equipment, choice of activities for the children, safety and health measures, and an introduction to the parents' role in such a nursery school. Mrs. Bruce Wright led the discussion.

It was decided the next meeting, to be held at the high school on Monday, October 4, will be a workshop for fathers and mothers, with refreshments being served and baby sitters in attendance.

Anyone interested in joining the group is invited to do so as there is still room for a few more children and parents.

Go South—
Mr. and Mrs. Lloyd Everett made a trip to New Mexico and other interesting places en route.

Greenes From Valley—
Mr. and Mrs. Lloyd Greene now living in the Bay district were local visitors last week.

September Dates—
Birth dates of a few local people occurred last week were the celebrations for Richard Joseph, Walter Barrett, Mrs. William Curran and Vern Shattuck.

Toninis Visit—
Mr. and Mrs. Ben Tonini of Morro Bay have been visiting their son and daughter-in-law, Mr. and Mrs. Robert Tonini at Tahoe City for two weeks and seeing local friends. The couple may continue on to Utah as guests of Mr. and Mrs. George Tonini of Reno.

Visitors Here—
Mr. and Mrs. Glen Parks and daughter, Gail, were visitors at the Anton Mahne home last weekend.

Ellis in South—
Jack Ellis returned last week from a trip to Los Angeles.

Tarzan

by EDGAR RICE BURROUGHS

WHEN BERNARD SHEA SAW THAT HIS 'SACRIFICIAL VICTIMS' HAD ESCAPED FROM THE SEA MONSTER, HE RALLIED HIS NATIVES IN PURSUIT.

TARZAN AND STERLING FLED, STUMBLING THROUGH THE THICKET AHEAD OF GEORGIE AND THE SCREAMING SAVAGES. "THERE'S THE PLANE!" CRIED THE APE-MAN.

THE MEN RACED DETERMINEDLY TOWARD THE PRECIOUS MACHINE--BUT DETERMINED, TOO, WERE THEIR BLOODTHIRSTY ENEMIES!

AND NOW, AS EVERYONE WAS DISTRACTED, GEORGIE CLIMBED INTO THE PLANE TO TAXI IT OUT OF REACH!

THE ENGINES ROARED AND THE CRAFT BEGAN TO MOVE--BUT TARZAN REACTED QUICKLY. HE BOOSTED STERLING UP INSIDE--

BUT BEFORE HE COULD BOARD HIMSELF, GEORGIE MANAGED TO TAKE OFF--AND THE APE-MAN WAS LEFT DANGLING IN SPACE!

WITHOUT DIKES, **38%** OF HOLLAND'S LAND SURFACE WOULD BE FLOODED REGULARLY EVERY **24 HOURS!**

"DAVID HARUM" -- *novel of Edward Noyer Westcott,* WAS REFUSED BY **6** DIFFERENT PUBLISHERS BEFORE IT WAS ACCEPTED IN 1897 ... IT SOLD OVER ***1,000,000 COPIES!***

DAVID HARUM

CURLY KAYOE

by SAM LEFF

IT LOOKS LIKE CURLY WILL DO IT AGAIN TONIGHT, FOLKS... ONE MINUTE LEFT IN THIS FIFTH ROUND - AND, OHH... **THERE IT IS!!**

ANOTHER GOOD PAYDAY - EH, JOE?

YEAH! BUT WITH EXPENSES, TAXES AND ODDS 'N' ENDS - YOU CAN'T KEEP TOO MUCH, CURLY!

JUST THE SAME, I INTEND TO TAKE A LONG REST BEFORE I FIGHT AGAIN!

HI, CHAMP!!

HELLO, GUS! HOW IS THAT SWELL KID OF YOURS?

TH' DOC SAYS HE'LL NEED ANOTHER OPERATION BEFORE HE'S BETTER!

MAYBE THIS WILL HELP!

GIVE OUR BEST TO JUNIOR, GUS!

YOU'VE GOT TO BE MORE CAREFUL WITH YOUR MONEY, CURLY!

GUS IS O.K. - HE'S JUST DOWN ON HIS LUCK!

HI, CHAMP! COULD I BORROW A FIVER?

THANKS, CURLY!

BLESS YOUR HEART!

WHAT A GUY!

I'LL SEE YOU AGAIN, FELLAS!

COME ON, CURLY - LET'S GET OUT OF HERE QUICK!

ER - JOE... I CHANGED MY MIND - PLEASE GET ME ANOTHER FIGHT **SOON!**

I LOVE YOU FOR IT, KID - BUT THE WAY YOU HAND OUT YOUR DOUGH YOU'LL HAVE TO FIGHT **EVERY NIGHT**

SAM LEFF
